

Introducing Sustainable Urban Mobility Plans (SUMP)

DATE and TIME (TIMEZONE) – [Insert link to the virtual session here](#)

1. Description

Since 2013, more sustainable and integrative planning processes have been lauded as a means of addressing urban mobility's complexity. New approaches to urban mobility planning are surfacing rapidly in a constantly ever-changing environment. Consequently, as part of the 2013 Urban Mobility Package, stakeholders and planning experts across the European Union developed Sustainable Urban Mobility Plans (SUMP). The main goal of SUMP is to enable local governments to tackle urban mobility challenges effectively. The core SUMP principles describe the main features of a modern and sustainable urban mobility and transport plan.

The ambitious goal and relevance principles of SUMP have made this approach a potential strategic plan for various stakeholders. This training session thus aims at giving the audience a broad overview of SUMP, its goals, and its complete development process.

2. Learning Objectives:

- Define the difference between sustainable transport and traditional mobility and the implications for planning
- Define the SUMP concept and how it supports sustainable mobility planning
- Identify the resources required to do a SUMP
- Describe the main steps in preparing a SUMP
- Reflect on the next implementation steps after adopting a SUMP

3. Potential Speakers

- **Person 1** | Position | Organisation (Moderator)
- **Person 2** | Position | Organisation
- **Person 3** | Position | Organisation

4. Agenda

Time	Activity	Responsible
0:00-0:05	Welcome and Housekeeping (5') <ul style="list-style-type: none"> ▪ Copyrights and Participation rules ▪ Quick intro to the organisation/ speakers ▪ Learning objectives and structure of the session 	Moderator
0:05-0:25	Introduction to Sustainable Mobility (20') <ul style="list-style-type: none"> ▪ Sustainable development ▪ Sustainable mobility ▪ The (E)ASI approach 	Speaker
0:25-0:55	Break-out Groups Exercise (30')	Moderator
0:55-1:00	Break (5')	Moderator
1:00-1:25	The SUMP Development Process (25') <ul style="list-style-type: none"> ▪ SUMP concept and comparison with the traditional approach ▪ MobiliseYourCity approach ▪ SUMP development approach 	Speaker
1:25-1:35	From SUMP Planning to Implementation (10')	Speaker
1:35-1:45	Questions, Feedback and Farewell (5')	Moderator
